NUMBER 22.

## INFORMATION ON RAILROAD MERGER IS SOUGHT HERE

Chamber Of Commerce Seeks To Know How It Will Effect Vernon In Case Roads Are Joined

Vernon business men want to know just how the proposed merger of the Fort Worth and Denver, Colorado Southern and Sante Fe systems as endorsed by the Wichita Falls chamber of commerce will effect Vernon and to try and ascertain this information J V. Townsend, secretary of the chamber of commerce will call a meeting of the directors of that body for some day this week. Mr. Townsend said bus iness men other than directors will be invited to attend the meeting to discuss the railroad matter and try and arrive at some understanding of the situation

It was reported from Wichita Falls in the Fort Worth Star Telegram this morning that an open meeting of the chamber of commerce at Wichita Falls had been held to discuss the matter at the request of Vernon business men. to Mr. Townsend. He said he had call amendment. ed Frank Kell on the telephone and asked him for some information regarding the proposed merger and that Mr. Kell had told him he would discuss the matter personally with him if he, Mr. Townsend would go to Wichita Falls. Mr. Townsend said he told Mr. Kell he would try and see him Monday and that in about two hours he got n long distance call from the chamber of commerce at Wichita Falls inviting him and any other business me who might want to attend, to an opemeeting on the matter. Mr. Towsend was unable to attend the meeting winch endorsed the project.

"We do not want to be held respon sible for that meeting in Wichita Falls when we are not responsible for it" Mr. Townsend said "although we have taken no stand on the proposed mer ger one way or another. We are seek Vernon and will take no stand until we find out how it effects this town. For that reason I am going to call the drawn out fight to close up the worst meeting of the directors and business link between Fort Worth and Denver. Mr. Bennett said. "I have investigate men some time this week."

## REPORT SHOWS MUCH INEQUALITY IN THE TAX DISTRIBUTION

#### East And North Texas Get Huge Sums In Excess Of Amounts Paid -Wilbarger Penalized

East Texas counties and north and central Texas black band counties are receiving from the state funds vast sums in excess of amounts paid into the state treasury by these counties. according to the annual report of cammissioner John G. Willacy for 1922.

On the other hand many West Fexas large cities are located are paying huge sums in excess of the amount received from the state by these counties the report shows.

The state tax rate for 1922 was 75c. The rate for the three years preceding 1922 were as follows: 1919, 75c; 1926 62e; 1921, 62c. The state school system receives the greater portion of these funds, which are disbursed to the various counties in accordance to

Electric Appliances, Motors, Lamps

WE DO ELECTRICAL REPAIRING

Cleveland, O .- The municipal electric light plant, so widely advertised as a "model" of municipal ownership success, lost \$58,219 in 1915. The balance sheet of the plant for December 31, 1915, showed accumulated deficits of \$134,007.15. These facts were established by Nau, Rusk & Swearingen, public accountants employed by the Baker-Ballard regime, which created the plant. They devoted about ten months to the investigation. This was evidently considered by the account ants as an unusually long period, for they said in their report: "The delay in returning this report and the almost inexplicable length of time it has taken to prepare the statements herein must be entirely attributed to the chaotic conditions of the bookkeeping records for the year 1915." About seventy pages of the report were given over to corrections of errors found in the bookkeeping. The accountants found and reported that during 1915 the plant had capitaized onehalf of its bond interest. The total amount of bonds outstanding was \$2,817,000 (on \$70,000 of these half the interest was not so capitalized) and the total investment in the plant \$3,667,688. In November, 1916, another bond issue of \$1,750,000 was voted, making the total bonds more than \$4,500,000. Originally they were \$2,770,000. The report further showed receipts for 1915 to have been \$548,574.72, operating expenses \$428,-669.74, leaving 119,904.98. From this the report shows the following deductions: Funded debt interest, \$112,655.90; other interest, \$9,545.48; interest on city investment, \$24,-229.32 and taxes foregone, \$31,693.72 making total of \$178,124.42. This exceeds the gross income by \$58,219.44. It was shown that the project could not have been financed at an interest rate of 4.5 per cent if the entire credit of the city had not been behind it, and if it had been compelled to pay the same interest rate as private companies the loss would have been \$204,650.14.

This plant has played its pare in politics and personal-interest enterprises. Great things have been predicted and claimed for it. Its original manager and one of its founders, F. W. Ballard, in a booklet he issued in

"We expect to actually make \$200,000 surplus for the year 1915. In 1916 this surplus will be great

Soon after he went out of office with the rest of dently cut quite a figure in securing authority in Menodiis for \$1,500,000 bonds for a plana

ing at Memphis. But, for the present, this report was withheld from the people of Cleveland. An election other bunch of bonds for this plant \$1,750,000 - and auditors' report, showing the plant to be a loser, had been published by the city authorities before this efection the bonds would have been builty beaten. As it was the bonds carried, bringing the total amount \$4,500,000

While the withholding of the sudit report un ss soon after the audit report became publicly known Memphis canceled its bonds and abandoned its muni-New York. The city also paid Mr. Ballard \$25,000. The Memphis Commercial-Appeal said all this money and all the time wasted could-have been saved to the taxpayers had they been led into a serious effort to get better terms with the private companies, rather than led into an agitation for municipal ownership, and that they could also have been saved larger sums in the reduced rates obtained by an early settlement.

DRINKING MILK IF COWS ARE INFECTED

Fort Worth, Texas-Losses to livestock industries in the various states | Odom. berculosis in the coinion of livestock sanitary agencies here Dr. Harry Graf Dr. Kopp took up the journey of a ke inspector in charge of the bureau of each stage in life. He discussed first sanitary commission of Texas, are of vine tuberculosis must be their chief work when the campaign for the eradi-

It has been proven beyond a shadow of a doubt with many examples which may be cited, that boying tuberculosis is communicable to human beings and that its ravages can be transferred quickly from an infected mileh cow to children drinking the milk. One of the most pathetic cases ever discovered is described in the current Issue of Journal of the American Veterinary Medical Association and included in the article is the following statement from W. D. Odom of Columbia, Peo. victim of the case.

"In the fall of 1912 the dairy herd of O. H. Hightower was tested for tuberculosis by Dr. W M Howell and two cows were put out of the dairy One was killed as a reactor and one was faith without works avails nothing. He called suspicious and the suspicious one was taken to my premises and patient it is necessary that the patient milked I felt that the office of milk inspector was a graft, to give some man an easy job, and did not believe sick man as he must also take the that there was any such thing as tuber medicine prescribed by the physician. culosis in cows. This cow was fed just-Dr. Kopp said the kingdom of God as those of the dairy were fed and in one month she looked so bad that 1

# GET CHEAPER LIGHTS NOW

## A New High School Also

LET'S HAVE ACTION NOW!

#### WYLIE W. BENNETT

Candidate for Commissioner West Side

You can vote for either can didate whether you live on the East or West side.

Dear Voter:-

Realizing that it is impossible for me to see each voter personally I am using this method of setting forth my position with reference to important matters affecting the city's affairs, and I respectfully ask that you give your careful consideration to the following:

#### LIGHTS

Dissatisfaction over the light question in Vernon came about as a result of high rates and poor service. The people wanted relief and were entitled to it and I believe they could have had it long ago if the proper methods had been invoked. The people have never wanted a municipal plant, provided reasonable rates and adequate service is furnished by the private concern-this service should include proper extensions to the outlying districts as well as other improvements. What the people want is quick, substantial and definite relief NOW.

Now I say this can be obtained without building a municipal plant. The city has authority under both its charter and the state laws to set the rate and prescribe the kind of service. Has any attempt been made to exercise this right? None has been made. Can it be exercised and the desired relief obtained? I say it can. I ask you to believe me when I say I am sure it can be done and done quickly and equitably. What we all want is results and I say we can get them and get them now.

Right here I want to say that now is the time to test our city charter and see if it is any good. Lets have action and settle this question for all time and get a permanent rate reduction and guaranteed service-elect me and I will accomplish this or get off the job.

Now I want to pledge myself here and now to support a municipal plant if a straight-forward, intelligent and businesslike effort to get cheaper lights and better service from the private plant fails to get results.

#### The Question That Is Second But An Extremely Important One Is-

#### A NEW HIGH SCHOOL

Shall we have a new high school? This question points directly to every home where children reside. It appeals to every true citizen regardless of whether or not he or she have children to educate. Every citizen in Vernon who will investigate present conditions at the local high school will unreservedly agree with me that-"It is absolutely imperative that we have a new high school." You know this sentiment is almost unanimous.

All right then, shall we have a new building and equipment, or merely add to the old one? If we add to the present building it would still be inadequate in many respects and we would soon have to build another ward school. So why not build what we need now and for years to come? This is, in my opinion, the only intelligent way to solve the problem.

Now what per cent of our citizens are able to send their children to college? I would say about 10 per cent. Are not the children of the remaining 90 per cent entitled to the very best educational advantages that it is possible for Vernon to afford? The answer is emphatically "YES."

#### KILL TWO BIRDS WITH ONE STONE.

Consider this: Relief from both the light situation and school conditions are imperative. If we build both a high school and a light plant our taxes must be increased. If this is not true we must then admit that our present tax rate is too high for our present requirements. If we can get relief on the light question without building a city plant, then we can build a high school without increasing taxes-simply convert the light bonds into school bonds. I am convinced that this can be done and pledge myself to an honest and sincere effort in this direction, if elected.

#### CITY EMPLOYEES

I mention this subject only because I have been asked many times regarding my attitude as to various employees of the city. I do not consider this question an issue of the campaign-I would eliminate politics entirely, if possible, with reference to city employees. I will make this broad statement: "All present employees of the city (who are needed) who are performing their duties fully and satisfactorily should be retained. If any are not measuring up to this standard they should be replaced, and if elected, I shall vote to this end. I am also in favor of giving home labor preference on city work."

I believe in strict and rigid economy in every branch of the city's affairs and ask for your vote on a basis of my attitude as expressed above on the two principal issues-Lights and High School. I shall appreciate your support and pledge my best efforts to the realization of the platform above set forth.

## Frames Should Fit The Face

Correctly fitting frames are almost as important as correctly ground lenses. Therefore we take particular pains to make sure that the frames fit the face perfectiv.

The center of the glasses should come exactly opposite the pupils of the eyes. The glasses should not be too wide or too narrow. The bridge should fit the nose so well that wobbling will be impossible.

We are experts in the proper fitting of glasses and our skill is at your service. If the glasses you now wear do not fit perfectly bring them to us for adjustment.

Construction

With lumber that is perfectly manufactured and seasoned before it leaves the mills, the carpenter can build in less time, than with imperfect lumber.

Dimension lumber that is of exact width and thickness, requires no sorting or dressing before it can be used, and if well seasoned the finished inner walls are less inclined to

All togued and grooved lumber such as shiplap, flooring and ceiling can be very annoying and wasteful of the carpenter's time if imperfectly milled.

To build rapidly and well each piece of lumber should conform to the piece next to it.

With Long-Bell trade-marked lumber it is possible to complete a structure in less time and therefore at less cost—the saving in construction cost by use of Long-Bell lumber is attended with a full measure of permanency and satisfactory

## INFORMATION ON RAILROAD MERGER IS SOUGHT HERE

#### Chamber Of Commerce Seeks To Know How It Will Effect Vernon In Case Roads Are Joined

Vernon business men want to know just how the proposed merger of the Fort Worth and Denver, Colorado Southern and Sante Fe systems as endorsed by the Wichita Falls chamber of commerce will effect Vernon and to try and ascertain this information J. V. Townsend, secretary of the chamber of commerce will call a meeting of the directors of that body for some day this week. Mr. Townsend said bus iness men other than directors will be invited to attend the meeting to discuss the railroad matter and try and arrive at some understanding of the situation

It was reported from Wichita Falls in the Fort Worth Star Telegram this morning that an open meeting of the chamber of commerce at Wichita Falls had been held to discuss the matter a the request of Vernon business men to Mr. Townsend. He said he had call amendment. ed Frank Kell on the telephone and asked him for some information regarding the proposed merger and that Mr. Kell had told him he would discuss the matter personally with him if he, Mr. Townsend would go to Wichita Falls. Mr. Townsend said he told Mr. Kell he would try and see him Monday and that in about two hours he got a long distance call from the chamber of commerce at Wichita Falls inviting him and any other business me who might want to attend, to an ope meeting on the matter. Mr. Towsend winch endorsed the project.

"We do not want to be held respon sible for that meeting in Wichita Falls when we are not responsible for it' Mr. Townsend said "although we have taken no stand on the proposed mer ger one way or another. We are seeking information on how it will effect Vernon and will take no stand until we that reason I am going to call the meeting of the directors and business men some time this week."

#### DICK BOWERS AND JACK DENTON FIGHT IN CHILDRESS

## REPORT SHOWS MUCH INEQUALITY IN THE TAX DISTRIBUTION

#### East And North Texas Get Huge Sums In Excess Of Amounts Paid -Wilbarger Penalized

East Texas counties and north and central Texas black land counties are receiving from the state funds vast sums in excess of amounts paid into the state treasury by these counties, according to the annual report of commissioner John G. Willacy for 1922.

On the other hand many West Texas counties and other counties in which he report shows.

The state tax rate for 1922 was 75c. 1922 were as follows: 1919, 75c; 1920 62c; 1921, 62c. The state school sys tem receives the greater portion of these funds, which are disbursed to the various counties in accordance to the scholastic census reports.

light plant, so widely advertised as a "model" of municipal ownership success, lost \$58,219 in 1915. The balance sheet of the plant for December 31, 1915, showed accumulated deficits of \$134,007.15. These facts were established by Nau, Rusk & Swearingen, public accountants employed by the Baker-Ballard regime, which created the plant. They devoted about ten months to the investigation. This was evidently considered by the account ants as an unusually long period, for they said in their report: "The delay in returning this report and the almost inexplicable length of time it has taken to prepare the statements herein must be entirely attributed to the chaotic conditions of the bookkeeping records for the year 1915." About seventy pages of the report were given over to corrections of errors found in the bookkeeping. The accountants found and reported that during 1915 the plant had capitaized onehalf of its bond interest. The total amount of bonds outstanding was \$2,817,000 (on \$70,000 of these half the interest was not so capitalized) and the total investment in the plant \$3,667,688. In November, 1916, another bond issue of \$1,750,000 was voted, making the total bonds more than \$4,500,000. Originally they were \$2,770,000. The report further showed receipts for 1915 to have been \$548,574.72, operating expenses \$428,-669.74, leaving 119,904.98. From this the report shows the following deductions: Funded debt interest. \$112,655.90; other interest \$9.545.43; interest on city investment, \$24, 229.82 and taxes foregone, \$31,693.72 makng total of \$178,124.42. This exceeds the gross income by \$58,219.44. It was shown that the project could not have been financed at an interest rate of 4.5 per cent if hind it, and if it had been compelled to pay the same interest rate as private companies the loss would have been \$204,650.14.

This plant has played its pare in politics and personal-interest enterprises. Great things have been predicted and claimed for it. Its original manager and one of its founders, F. W. Ballard, in a booklet he issued in

We expect to actually make \$200,000 surplus for the year 1915. In 1916 this surplus will be great-

ow, all this while Nau, Rusk & Swearinge submitted their report while things were still pendwithheld from the people of Cleveland. An election ther bunch of bonds for this plant \$1.750,000 - and the belief was later evident in Cleveland that if the auditors' report, showing the plant to be a loser, had been published by the city authorities before

at Memphis-this has never been claimed-neverthe New York. The city also paid Mr. Ballard \$25,000. The Memphis Commercial-Appeal said all this money and all the time wasted could-have been saved to the taxpayers had they been led into a serious effort in the reduced rates obtained by an early settlement.

No man was ever sorry that he paid the price of quality. He gets something that can't be reckoned in dollars and cents-deep pride of appearance- and he gets something that can be so measured long and honorable service far beyond what the price equitably entitles him to.

# GET CHEAPER LIGHTS NOW

## A New High School Also

LET'S HAVE ACTION NOW!

WYLIE W. BENNETT

Candidate for Commissioner West Side

You can vote for either candidate whether you live on the East or West side.

Dear Voter:

Realizing that it is impossible for me to see each voter personally I am using this method of setting forth my position with reference to important matters affecting the city's affairs, and I respectfully ask that you give your careful consideration to the following:

#### LIGHTS

Dissatisfaction over the light question in Vernon came about as a result of high rates and poor service. The people wanted relief and were entitled to it and I believe they could have had it long ago if the proper methods had been invoked. The people have never wanted a municipal plant, provided reasonable rates and adequate service is furnished by the private concern—this service should include proper extensions to the outlying districts as well as other improvements. What the people want is quick, substantial and definite relief NOW.

Now I say this can be obtained without building a municipal plant. The city has authority under both its charter and the state laws to set the rate and prescribe the kind of service. Has any attempt been made to exercise this right? None has been made. Can it be exercised and the desired relief obtained? I say it can. I ask you to believe me when I say I am sure it can be done and done quickly and equitably. What we all want is results and I say we can get them and get them now.

Right here I want to say that now is the time to test our city charter and see if it is any good. Lets have action and settle this question for all time and get a permanent rate reduction and guaranteed service-elect me and I will accomplish this or get off the job.

Now I want to pledge myself here and now to support a municipal plant if a straight-forward, intelligent and businesslike effort to get cheaper lights and better service from the private plant fails to get results.

The Question That Is Second But An Extremely Important One Is-

#### A NEW HIGH SCHOOL

Shall we have a new high school? This question points directly to every home where children reside. It appeals to every true citizen regardless of whether or not he or she have children to educate. Every citizen in Vernon who will investigate present conditions at the local high school will unreservedly agree with me that-"It is absolutely imperative that we have a new high school." You know this sentiment is almost

All right then, shall we have a new building and equipment, or merely add to the old one? If we add to the present building it would still be inadequate in many respects and we would soon have to build another ward school. So why not build what we need now and for years to come? This is, in my opinion, the only intelligent way to solve the problem.

Now what per cent of our citizens are able to send their children to college? I would say about 10 per cent. Are not the children of the remaining 90 per cent entitled to the very best educational advantages that it is possible for Vernon to afford? The answer is emphatically "YES."

#### KILL TWO BIRDS WITH ONE STONE.

Consider this: Relief from both the light situation and school conditions are imperative. If we build both a high school and a light plant our taxes must be increased. If this is not true we must then admit that our present tax rate is too high for our present requirements. If we can get relief on the light question without building a city plant, then we can build a high school without increasing taxes-simply convert the light bonds into school bonds. I am convinced that this can be done and pledge myself to an honest and sincere effort in this direction, if elected.

#### CITY EMPLOYEES

I mention this subject only because I have been asked many times regarding my attitude as to various employees of the city. I do not consider this question an issue of the campaign-I would eliminate politics entirely, if possible, with reference to city employees. I will make this broad statement: "All present employees of the city (who are needed) who are performing their duties fully and satisfactorily should be retained. If any are not measuring up to this standard they should be replaced, and if elected, I shall vote to this end. I am also in favor of giving home labor preference on city work."

I believe in strict and rigid economy in every branch of the city's affairs and ask for your vote on a basis of my attitude as expressed above on the two principal issues-Lights and High School. I shall appreciate your support and pledge my best efforts to the realization of the platform above set forth.

Respectfully,

WYLIE W. BENNETT

## Frames Should Fit The Face

Correctly fitting frames are almost as important as correctly ground lenses. Therefore we take particular pains to make sure that the frames fit the face perfeetly.

The center of the glasses should come exactly opposite the pupils of the eyes. The glasses should not be too wide or too narrow. The bridge should fit the nose so well that wobbling will be impossible.

We are experts in the proper fitting of glasses and our skill is at your service. If the glasses you now wear do not fit perfectly bring them to us for ad-

construction

With lumber that is perfectly manufactured and seasoned before it leaves the mills, the carpenter can build in less time, than with imperfect lumber.

Dimension lumber that is of exact width and thickness, requires no sorting or dressing before it can be used, and if well seasoned the finished inner walls are less inclined to

All togued and grooved lumber such as shiplap, flooring and ceiling can be very annoying and wasteful of the carpenter's time if imperfectly milled.

To build rapidly and well each piece of lumber should conform to the piece next to it.

With Long-Bell trade-marked lumber it is possible to complete a structure in less time and therefore at less cost—the saving in construction cost by use of Long-Bell lumber is attended with a full measure of permanency and satisfactory

# DIXON'S

It is with a great deal of price and pleasure that this store looks forward to the arrival of Easter, and, the opportunity to supply the women of Vernon and surrounding territory with season's listinctive and original mode.

Our showing at this time exceeds all previous efforts in variety, they and in the exceptional values offered.

#### SUFTS FOR EASTER

Three-piece costume modeels vie with the two-piece styles. One may choose a suit of extreme simplicity or one that has nothing of the tailored severity. Suits that wrap around and fastern at the side with sich or cabochon. Suits with short or long jackets, fitted or flaring, boxy or bloused Twill fabrics, velour checks and camel's hair are favored in navy, greys and tans.

\$25.00 up to \$89.50

#### GOWNS FOR EASTER

They have captured every mode of fashion and reflect them to you by means of fascinating plaitings, alluring panels and graceful draperies; exquisite Egyptian embroideries, dainty laces and sparkling beadings. They have a decided preference for slenderizing youthful silhouettes with sleeves, short-almost to annihilation or long and tight, flowing or balloon like-Flat Crepes, Canton Crepes, Paisley, Printed Crepe and Taffeta-colors, gray, tan, black, ashes of roses, beige and mountain

\$19.50 up to \$79.50

### WRAPS FOR EASTER

Fashioned of the season's newest materials, in all the Spring colorings, drape, wrap around models, blouse, tiered, jacquet, side-ties and conservative coat models that are always practical and serciceable.

\$18.50 up to \$59.50

## EASTER MILLINERY OF THE MOST EXCLUSIVE TYPE

There's more than the usual charm and becomingness in the wonderful exclusive models that have come for Easter.

Color, always of first importance, may choose a background of soft grey or lovely tones of brown, or the rich dull blues which have been much favored. Black and white also are more than usually lovely in the ultra smart effects by their artful combination. There's a wealth of smart styles and rich beauty in our presentation.

\$3.95 up to \$24.50
